

## TECHNICAL DATA SHEET

GENERAL DESCRIPTION			
Bag Type	 <p>PBS 3D.65 Pollination Bag</p>		
Manufacturer	PBS International Ltd		
Description	<p>Designed for a range of breeding applications, the PBS 3D.65 bag is constructed with a gusset to provide extra capacity. The increased space minimises contact between the plant and the bag. Optional window flap to protect against strong sunlight.</p> <p><b>duraweb®</b>, the unique material that our products are made from, is much stronger than paper or plastic and is durable in rain and windy conditions.</p> <p>The advanced breathability of <b>duraweb®</b> creates an environment inside the bag that minimises humidity and high temperatures far more effectively than paper or plastic bags. It halts unwanted pollen, reduces contamination and increases seed yield.</p>		
Country of Origin	United Kingdom		
HS Code	HS 392329 90 0		
Storage	Store in cool, dry conditions
